1. The method of claim 1, wherein the light source is a laser diode.

2. The method of claim 1, wherein the light source is a light emitting diode.

3. The method of claim 1, wherein the light source is a light emitting diode array.

4. The method of claim 1, wherein the light source is a light emitting diode array.

5. The method of claim 1, wherein the light source is a light emitting diode array.

6. The method of claim 1, wherein the light source is a light emitting diode array.

7. The method of claim 1, wherein the light source is a light emitting diode array.

8. The method of claim 1, wherein the light source is a light emitting diode array.

9. The method of claim 1, wherein the light source is a light emitting diode array.

10. The method of claim 1, wherein the light source is a light emitting diode array.

11. The method of claim 1, wherein the light source is a light emitting diode array.

12. The method of claim 1, wherein the light source is a light emitting diode array.

13. The method of claim 1, wherein the light source is a light emitting diode array.

14. The method of claim 1, wherein the light source is a light emitting diode array.

15. The method of claim 1, wherein the light source is a light emitting diode array.

16. The method of claim 1, wherein the light source is a light emitting diode array.

17. The method of claim 1, wherein the light source is a light emitting diode array.

18. The method of claim 1, wherein the light source is a light emitting diode array.

19. The method of claim 1, wherein the light source is a light emitting diode array.

20. The method of claim 1, wherein the light source is a light emitting diode array.
